Twelve years after their debut album *On Location*, George Kooymans and Frank Carillo return to the front with their second album entitled *Mirage*.

Recorded over a period of approximately three years in various studios and countries, *Mirage* offers ten tracks that illustrate the natural chemistry between the two guitarists, showcasing artistic excellence, as well as a wide array of musical influences.

„Four countries, a fantastic cast of real characters, sometimes an ocean between us and more than a few laughs: That’s how Mirage came to life. We wrote a number of the songs in George’s kitchen while he cooked and I strummed guitar. Then he strummed and I got on the cutting board. We like to cook.” – George Kooymans & Frank Carillo

George and Frank are accompanied by a.o. Paul Orofino (banjo, guitar, Hammond Organ), Rinus Gerritsen (bass), Bobby Langenberg (drums), Ocki Klootwijk (bass), John Sonneveld (keyboards, programming) and George’s daughter Cassy on harmony vocals.

„It wasn’t a conscious effort to make a CD. We just wanted to write and record because we loved doing what we do. After a while, we realized that we had enough material recorded to put out a new collection so here it is.” – George Kooymans & Frank Carillo
